

Malabar Cancer Centre

(Post Graduate Institute of Oncology sciences and Research)

Certificate Course in Head and Neck Onco-Rehabilitation

A Joint venture by MCC(PGIOSR) & National Institute of Speech & Hearing (NISH)

ABOUT THE INSTITUTIONS

Malabar Cancer Centre(PGIOSR), Thalassery is an autonomous institution under Health and Family Welfare Department, Government of Kerala, started with an aim to establish a comprehensive cancer centre, providing the much-required oncology care to the population of Northern region of Kerala and neighbouring parts of Karnataka and Tamilnadu states and Union Territory of Pondicherry(Mahe). The main objective of the Centre is not only to provide comprehensive cancer care but also to develop as a Research and Training Centre of International standards. At present MCC(PGIOSR) has a total bed strength of 203 with 170 in-patient beds. MCC(PGIOSR) is being developed as a postgraduate institute of Oncology sciences and research. It has research association with School of Health Sciences, Kannur University, Centre for Electronic Materials Technology, Thrissur and HTIC-Chennai, various institutions of National cancer Grid etc.

National Institute of Speech & Hearing (NISH), Trivandrum Kerala : National Institute of Speech & Hearing (NISH) was set up as a Society by the Government of Kerala perGO (Ms) No. 7/97/SWD dated 11 Mar, 1997. NISH is a comprehensive multi-purpose institute focusing on the identification, intervention, rehabilitation and education of individuals with disabilities. Since its inception in 1997, NISH has made significant contributions to improving the quality of life of individuals with disabilities and has taken a pioneering effort in implementing various higher education programs in the disability sector. Academic functions of NISH include various courses for professional preparation viz. Bachelors in Audiology and Speech language pathology, MSc Audiology, MSc Speech, Bachelor of Occupational Therapy which are affiliated to Kerala University of Health Sciences. NISH is also conducting three under graduate courses for the students with Deaf and Hard of hearing students viz. BSc Computer Science (HI), B.Com (HI), BFA (HI) which are affiliated to Kerala University along with many other unique value added certificate programs

ABOUT THE PROGRAM :

This is a twelve months onsite certification program for graduates and Post graduates in Audiology and Speech Language Pathology who have special interest in rehabilitation of Head & Neck cancer patients. The certificate course in Head & Neck Onco-Rehabilitation is both academically and clinically oriented and has a strong and standard curriculum, experienced teaching facility and good faculty supervision.

MCC(PGIOSR) shall be the primary site for the program and candidates shall be observing and performing speech and swallow rehabilitative services at MCC(PGIOSR). NISH will be providing theory classes in Online mode.

Specific skills will be developed in assessment and management of impairments, disabilities and handicap with Head & Neck Oncology patients undergoing treatment and on Follow up.

AIM AND OBJECTIVES OF THE PROGRAM

The course curriculum is oriented towards training students to undertake the responsibilities of oncology rehabilitation in head and neck.

- This course enables the students to acquire professional knowledge in assessment, rehabilitation of voice and swallowing aspects.
- To develop skills to communicate effectively for the Persons with head and neck oncology diseases.
- To develop the time management and organizational skills necessary to provide efficient care for clients.

SCOPE OF THE PROGRAMME

To assist people who need care after head and neck surgery due to oncology diseases and rehabilitate them for effective communication and feeding skills which might be compromised the same.

On completing the course, the person will be able to provide appropriate rehabilitative measures for a person with head and neck oncology diseases.

After successful completion of the course the person can be employed by private care agencies, long term care facilities, home care, and can be self-employed.
